Frankie Ramirez

Front-end Architect

United States

Summary

Experienced Senior User Interface Engineer with a demonstrated history of working in the information technology and services industry. Strong engineering professional with a Bachelor of Science (B.S.) focused in Web Design & Development from Full Sail University.

Experience

Haven

Senior Software Engineer

April 2023 - October 2024 (1 year 7 months)

Led the ground-up architecture of a white label, multi-tenant mortgage servicing platform and worked closely with the UX team to build a component library and design system for the servicing platform. I wrote and executed upon many tech plans for refactors, new features, and net-new prototypes.

Trellis

1 year 11 months

Senior Software Engineer

November 2022 - April 2023 (6 months)

I owned the front-end of the Connect platform and ran experiments to constantly improve conversion rates. I also made several performance improvements, reducing the bundle size dramatically and saving the company thousands of dollars annually.

Software Engineer

June 2021 - November 2022 (1 year 6 months)

SemanticBits

Senior Software Engineer

November 2020 - June 2021 (8 months)

Worked on an Agile team, building feature sets for medical providers using TDD methodologies.

NCR Corporation

Senior UI Engineer

May 2018 - October 2020 (2 years 6 months)

Worked with the global design system team to establish a fully documented component library that could be used by any teams across the company.

Codivated LLC

Senior Software Engineer

August 2017 - May 2018 (10 months)

Centare

Consultant

January 2015 - July 2017 (2 years 7 months)

Designzillas, LLC

Lead Engineer

July 2012 - January 2015 (2 years 7 months)

I am project lead / manager on any mobile applications that come to our company. Also, as a team lead, I'm responsible for making sure a group of individuals have any support they need to work efficiently on a daily basis. I create and manage Agile Scrum projects in JIRA, organizing anything from a small brochure site to a large, complex application. I am also a member of our Process Improvement Team (P.I.T.), working with a few others to improve our development process and workflow through our own ideas, as well as hearing others out.

Freelance

Frontend Developer

April 2008 - November 2011 (3 years 8 months)

Education

Full Sail University

Bachelor of Science (B.S.), Web Design & Development · (2010 - 2012)
